ELECTRICAL REMODELING NOTES

- For kitchen cabinet replacement, please submit 2 copies of a floor plan showing all devices new (N) and existing (E), GFI's, etc. Spacing shall comply with NEC 210-52 C
- Plans shall be signed and dated by a Florida Licensed Professional Engineer or a licensed Master Electrician (License number must be included.)
- If electrical work is needed in order to bring existing condition into compliance with current NEC requirements, then an electrical permit application must be submitted.
